Using Library Search to find a book

1. Type in the keywords (title or author) and click on the search icon 🔍

2. Click on the 'Available at...'

3. Click on 'GET IT' or scroll down to the Locations section

4. If 'Available' within the library note the library location e.g. Institute Of Psychiatry and the classmark (classmark = shelf location code e.g. QP355.2 FUN)

5. Click on Locate, to view the floor plans (or use the physical ones in the libraries) to find where the corresponding classmark is within the library. Majority of the book collection at the IoPPN is on Floor 1.

Are you new to Kings or want to find out about more advanced features for Library Search?

See the 'Getting Started with the Library' section in your subject Library Guide libguides.kcl.ac.uk/home
